ZEROSTATE APP

Now there is a very limited opportunity in internet to express your opinion: «likes», «smileys», «ratings» and comments. It is faceless and does not reflect a person's emotions any more. We refuse totally from it, entering the States.

STATE is the emotions that are expressed by people, using one word to express the feeling.

ZEROSTATE is a mobile app, a completely different information system, based on the States.

At the moment we have 70 thousand users. At the end of 2018, we will have 400 thousand users. During 2019, their number will increase to 12 million, and by the end of 2020, there will be 82 million users.

FOR THE USER

- The ability to share your emotions and feelings
- To find the emotion you want to experience
- To find like-minded people
- To get rewarded for states

FOR THE ADVERTISER

- Customer loyalty
- It is a direct connection with the unconscious of your client, with his/her real emotions and feelings
- The increase of sales and complete honest statistics about your product or service
- Feedback from customers
- Emotional rating
- The presence on the radar of emotions
- The participation in emotional guides of region

ZEROSTATE
the unique emotional statistics about your product and service

ZEROSTATE FEATURES

EMOTIONAL BRANDING

The ZeroState app lets to learn and understand the emotions of people about the product. This is makes it possible to position the advertiser properly in the market and to push the client to choose its brand among many others.

EQ FOR LEARNING AI

For the evolution of Artificial Intelligence is necessary not only to teach it to have emotions and to understand the emotions of people, and to give an opportunity to AI to experience its own emotions. The introduction of AI in EQ allows you to solve this problem.

EMOTIONAL GUIDE

You can experience any emotion that you want in this moment by typing a search query in the app. For example, «good food», «fun jump» or even «extreme dance.» The application will give the location and details.

INTERNET OF THINGS

Modern technology connected to the Internet receives the access to all current and updated every second the noosphere of mankind. This allows you to respond instantly to the user's wishes and even to predict his/her mood, instantly adjusting.

ICO ZEROSTATE

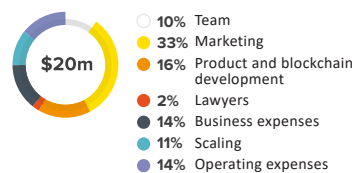

To raise funds necessary for successful and complete valuable development of the project, in April 2018, the initial coins offering (ICO) was launched.

On the stages of PRESALE and PUBLIC SALE TOKEN was sold 80% of the coins. For June 2018 the remaining amount of coins for sale is 20%.

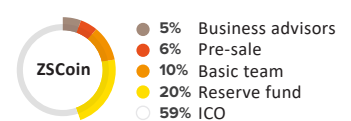

| PRESALE | | PUBLIC TOKEN SALE | | CURRENT PHASE |
|-----------------|-----------------|-------------------|--------------------|------------------|
| 5m token | 6m token | 7m token | 17.5m token | 19m token |
| bonus 50% | bonus 40% | bonus 30% | bonus 20% | bonus 0 |

The collected amount will be directed to further development of the app and project promotion:
